

Company B 104<sup>th</sup> Infantry  
26<sup>th</sup> Infantry Division  
July 1 2009

**Order No.** 20090701A1  
**To:** Officer's & NCO's  
**Subject:** "The Officers Guide, 9<sup>th</sup> Edition, 1943"

Gentlemen,

1. As indicated earlier and for making clear cut decisions and operations we will require all Company Cadre to familiarize themselves with "*The Officers Guide, 9<sup>th</sup> Edition, 1943*". The particular chapters for all to read and understand are Chapters; *VI Uniforms & Equipment, VII Assumption of Command, VIII Exercise of Command & XII Military Courtesy*. These chapters are most important to the manor of operating this unit.
2. For those NCOs' in a non Combat Infantryman Status, also familiarize yourselves with Chapters; *IX Mess Management* (Mess Section personnel), *X Supply* (Supply Section Personnel).
3. For Senior Cadre; *XI the Organization of Staff and its Function, XIII Customs of the service & XXV Discipline and Leadership*.
4. By reading and understanding these chapters it will make functioning as a well organized unit much easier. Clearly we are the best WWII Living History / Re-enacting Group in the North East. There are others that are reaching our proficiency and we must stay well above their reach, this is one method that will keep us all on the same sheet of music and with our accumulative cooperation we will maintain the professionalism that others try to emulate.

*George E. Devlin.*

George E. Devlin,  
Captain, 104<sup>th</sup> Infantry,  
Commanding.
